New Life

is given by using Brown's IRON BITTERS. In the Winter it strengthens and warms the system; in the Spring it enriches the blood and conquers disease; in the Summer it gives tone to the nerves and digestive organs; in the Fall it enables the system to stand the shock of sudden changes.

In no way can disease be so surely prevented as by keeping the system in perfect condition. Brown's IRON BITTERS ensures perfect health through the changing seasons, it disarms the danger from impure water and miasmatic air, and it prevents Consumption, Kidney and Liver Disease, &c.

H. S. Berlin, Esq., of the well-known firm of H. S. Berlin & Co., Attorneys, Le Droit Building, Washington, D. C., writes, Dec. 5th. 1881:

> Gentlemen: I take pleasure in stating that I have used Brown's Iron Bitters for malaria and nervous troubles, caused by overwork, with excellent results.

Beware of imitations. Ask for Brown's Iron Bit-TERS, and insist on having it. Don't be imposed on with something recommended as "just as good." The genuine is made only by the Brown Chemical Co. Baltimore, Md.

The Wise Fool-

Washington, May 29, 1832.—I met where you would, he was always figuring industriously with pencil and paper or gazing into vacancy with a far away look in his dreamy eyes. He dressed shabbily because in the world where he lived appearances went for naught and he had no money to spend in fashionable dissipation for the reason that it was all spent in experiments.

"My brother gave us a piece of carpet and other members of the family gave us a cooking-stove and two lamps. A class. Rev. Wm. Hodge was a native of the Hawfields congregation, and was born between 1740 and 1750, soon after the first settlement of this region, within a sked permission to paint the dirty floor. The proprietor denied our request, bedissipation for the reason that it was all spent in experiments. where you would, he was always figur-

fin, himself an old operator, once told me how "Ed" came to get married. It was after he had grown rich and had founded the small town on the Jersey Central road known as Menlo Park. You have it read to me. Perhaps my hands for the large of the large o "Why don't you get married?" asked a with my running." friend one day. "You live alone in that great barn of a house and your servants steal more than they earn. Get a wife, man, and make some poor girl happy. Edison blushed, and while confessing he had never thought of it, acknowledged that the suggestion was a good one. "But who shall I marry?" he queried in dismay. The friend informed him that there were a dozen girls in his employ, any one of whom would make him splendid wife. True, they were neither the glass of fashion nor the mould of form, but they were good honest girls, and that after all was the main consider ation. Well, to make a long story short, Edison looked them all over carefully and after selecting one, he put the question to her plumply. It was his way of doing business, but it astonished the young lady all the same. She asked time to consider. Edison gave her a week. When the time expired she consented. states and Canada on their bridal tour, election returns of 1880 : groom drove to the railway station, it passed Edison's laboratory. "Excuse me a few minutes," said he. "I over Alabama, looked something I must attend to be Arkansas, fore the train arrives." The train came California, and went and so did several others, but Colorado, no Edison. Finally the bride, who Connecticut, understood her husband's peculiarities Delaware, and who was withal a good deal of a Florida, philosopher, drove back to the house. Georgia, She didn't see Edison again for forty- llinois, eight hours. He had locked himself in Indiana, his study and in elaborating some idea lowa, that had suddenly occured to him be- Kansas,

NEWBERN, N. > 母BEATTY'S ⇔ BEETHOVEN ⇒ ORGAN 後×

Suitable for the Parlor, Chapel, Lodge, Church or Sabbath School.

I announced, during the Winter months, that the price ment for ON', 7 \$90.00, which includes a beautiful Organ of the Boethoven would be \$125, on and after May Iat, Bench, Music Bock, etc., securely packed, boxed and deliass, on account of the great rise in labor and material; livered on board cers. Order new, as the instrument canbus having recently largely increased my facilities (such as building as witch-back railroad, so as to handle coal, lumber and organs without expense of cartage, adding new labor, and organs without expense of cartage, adding new labor, saving machinery, &c.) for making this particular style of thouse, the least of the latest of latest This beautiful Organ is manufactured from the choicest of thoroughly seasoned and well selected Black Walmut, it will stand the test of any climate. It is elegantly proportioned, conately carved, and has fret and gold arabesque ornamentation. The case has a rubbed varnish finish, will not take the dirt or dust. It is called "BETHOVEN," as its musical effects are the most wonderful yet produced at any price, hence it is named after the World's greatest composer. The variety, expression, tone beauties and combination effects cannot be equalled by any other manufacturer at less than \$450. Why? Because the Patented Improvements are my ewe and me one clee can build an Organ on this plan.

Address or call upon DANIEL F. BEATTY, Washington, New Jersey.
